Observation(s)

Today was the “Save The Bears”bake sale! All the children brought in yummy treats from home. We set up a classroom like a little “shop” and the other classrooms came to support us. The children help explain to the customers how much each item cost.

We made a graph to show how much money we raised. Our goal was to raise \$100 in order to adopt to put two bears. We raised a total of \$300! We were very proud of ourselves!
